May 15, 2005

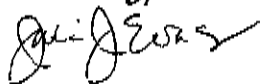

Dear Adrienne,

This letter is very late, but Ken and I would still like you to know how much we appreciated all the help and guidance we received from everyone at Authentic during the process of building our house. Your entire staff could not have been nicer and it made the whole experience one we would consider repeating with you.

We particularly appreciated the way in which Israel and Jim worked to make our vision a reality. Israel took our rather vague sketch and not only realized it, but, with Jim's help and our input, made it so much better than we could have imagined. In addition, when problems arose, all of you worked with us to solve them creatively and were very responsive, even long after our closing.

We love our house. Thank you, Authentic, for making our ideas possible.

Sincerely,

Julie Evans
