February 28, 2008

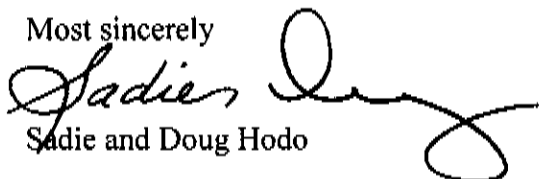

Dear Adrienne

Sadie and I wanted you and the other members of the Authentic Custom Home team what a blessing it is for us to live in the beautiful home which the team has designed and built for us. We have been very pleased not only with the design and construction of the home but also with the continued follow up which has been available to us beyond the normal one year after construction and move in.

As of tomorrow, we will have been in our home for 21 months and the staff has continued to check to see if there are things which need attention. When we have called seeking that sort of help, you and other members of the Authentic team has responded in a timely and friendly manner. We have shared with others, on numerous occasions, how pleased we are that we chose Authentic Custom Homes to be our design and construction team.

Thank you again for being the one who designed and built our lovely home and being our friends. Best wishes for being a successful part of the Boerne scene for a long time to come.

Most sincerely

  
Sadie and Doug Hodo
